Goes On

Be an organ/tissue donor

Jesse White • Secretary of State

To strengthen the Illinois Organ/Tissue Donor Registry through outreach and registration initiatives.

National Donor Sabbath

National Donor Sabbath is an interfaith celebration of life and thanksgiving. It is a special time for congregations across America to learn about the critical shortage of organs and tissue and to celebrate the greatest blessing of all—LIFE.

Most major religions support organ, eye and tissue donation as one of the highest expressions of love, compassion and generosity.

Please take a moment today to pray for those whose lives have been saved by the gift of donated organs, for those who have donated life and their families, for those who are awaiting a lifesaving transplant, and for those who did not receive a transplant in time.

-
- Nearly 100,000 people are in need of lifesaving organ transplants nationwide. Many more need life-enhancing tissue transplants.
 - On average, 17 people die each day because the organs they need are not donated in time.
