August 4, 2020

2020 NATIONAL MINORITY DONOR AWARENESS MONTH

Message from Illinois Secretary of State Jesse White

Every August, we celebrate National Minority Donor Awareness Month by providing education and raising awareness about the disparities in organ and tissue donation within minority communities. Due to this year's challenges, my office has been working hard to promote the lifesaving message of organ and tissue donation. Building our registry at this time in order to give others a second chance at life is extremely important, especially in minority communities.

By sharing the enclosed information with cultural centers, public health departments and other outreach organizations, we are encouraging individuals in minority communities to register as donors in order to build an even more diverse donor registry which will benefit those waiting.

I hope you find the information useful. Please share it with those who may be interested in the presentation.

You can find additional information on our website www.LifeGoesOn.com and by visiting our social media pages at #LifeGoesOn. If you have any questions, please do not hesitate to call us at 800-210-2106.

Sincerely,

A handwritten signature in cursive script that reads "Jesse White".

Jesse White
Illinois Secretary of State
